

COUNTY OF VENTURA EXPANDED COVID-19 TESTING

Community transmission of COVID-19 continues to occur in Ventura County. Testing for COVID-19 has expanded to multiple locations throughout the County. Any Ventura County resident who meets the following criteria may schedule an appointment for testing by calling a State Location, at **1-888-634-1123**, or County's Ambulatory Urgent Care-sponsored testing site hotline, at **805-652-7660**.

CRITERIA FOR TESTING

To be eligible for testing you must meet one of the two following criteria:

1. **Symptomatic for COVID-19:** any person with cough or shortness of breath OR two of the following symptoms: fever greater than 100.4F, chills, muscle pain, headache, sore throat, diarrhea, new loss of taste or smell.
2. **Asymptomatic close contacts of a lab-confirmed COVID-19 case (see criteria below).**

For Asymptomatic individuals please note the following:

- **Asymptomatic close contacts** may be tested at 2 time points, both at the beginning and the end of the 14-day quarantine period. If they are positive at the first test, they do not need to be re-tested at 14 days.
- A "**close contact**" of a "case" of COVID-19 is defined as living or staying at the same residence, being an intimate sexual partner, staying within 6 feet for more than 10 minutes while the case is not wearing a mask, or having direct contact for any amount of time with the body fluids or secretions of the case (e.g. was coughed or sneezed on, shared utensils with, was provided care by, or provided care for the case, without wearing a mask, gown, and gloves).

TESTING

Available for all adults and children who live in Ventura County ***who have symptoms compatible with COVID-19***. A physician referral for testing is not necessary. County residents will not be charged for the test and are not required to have health insurance, although they will be asked for insurance information if available.
